

CAREER OPPORTUNITIES TALKS

2nd September 2010 (Thursday)

Lotus 4A, Level 4

2.00 pm to 2.30pm & 4.00 pm to 4.30 pm

CAREERS IN THE BUILT ENVIRONMENT

By Ms Tan Hoon Wee, Senior Exec Development Officer, Building & Construction Authority

About the Talk :

The objective of the talk is to raise awareness of the 6 main professional careers in the built environment, namely architect, civil and structural engineer, mechanical and electrical engineer, quantity surveyor, project manager and facility manager.

The talk will also touch on the roles and responsibilities of these professions and the training route to join these professions, including scholarship opportunities.

3.00 pm to 3.30 pm & 5.00 pm to 5.30pm

THE WORLD OF THE PROFESSIONAL ENGINEER

By Prof Graeme Britton, Professor, and Vice President Vocational and Technical Education, Raffles University System

About the Talk :

What is a professional engineer? Who can become one? How do you become one?

The talk will explain what a professional engineer is and the relevance of professional engineers in designing, operating and maintaining complex engineering facilities.

The process for obtaining engineering registration/certification will be described and illustrated with examples from different countries
